

## NUTS

The Nomenclature of Territorial Units for Statistics (NUTS) was established by Eurostat to provide a single uniform breakdown of territorial units for the production of regional statistics for the European Union.

| <b>Code</b> | <b>Label</b>                        | <b>Level</b> |
|-------------|-------------------------------------|--------------|
| MT          | MALTA                               | 0            |
| MT0         | MALTA                               | 1            |
| MT00        | Malta                               | 2            |
| MT001       | Malta                               | 3            |
| MT002       | Gozo and Comino / Għawdex u Kemmuna | 3            |
