

## Retail Price Index (RPI)

The Retail Price Index (RPI) classification is a tailor-made classification for national purposes similar to COICOP/HICP (Classification of Individual Consumption by Purpose adapted to the needs of Harmonised Indices of Consumer Prices). The RPI measures in index form the monthly changes in the cost of purchasing a constant representative basket of consumer goods and services.

<b>Code</b>	<b>Label</b>
00.000	All items index
